# HIGH VALUE CROPS DEVELOPMENT PROGRAM

# HIGH VALUE CROPS DEVELOPMENT PROGRAM

In 1995, Republic Act 7900 known as the High Value Crops Development Act was created. It is an act to promote the production, processing, marketing and distribution of high value crops.

High Value Crops Development Program is one of the banner programs of the Department of Agriculture mandated to contribute for the attainment of food self sufficiency, economic growth and enhancement of consumer's health and welfare. It also promotes the production, processing, marketing and distribution of high value crops.

## VISION

- A productive farming community

## MISSION

- Empower the high value crops farmers/ producers
- Attain food sufficiency and economic growth

## GOALS

- Increase production, income and livelihood opportunities among small producers
- Have access to affordable, safe and healthy food

## HVCDP PRIORITY CROPS

### INDUSTRIAL CROPS

Coffee, Rubber, Cacao & Abaca

### VEGETABLE

Lowland, Highland, Spices & Legumes

### FRUITS

Mango, Banana, Pineapple, Others

### ALTERNATE FOOD STAPLE CROPS

Banana-saba, Rootcrops

## OBJECTIVES AND KEY RESULTS

### 1. Facilitate and harmonize development interventions in the strategic production area(s)/zone(s)

- Building strong coordination and partnership with DA-attached agencies, producers, LGU, NGOs and other major stakeholders in crafting local high value crops development agenda
- Support the local priorities

### 2. Delivery of appropriate development support services

- Support to the Participatory Technology Development and Promotion activities.
- Support to the advancement of sustainable farming technology.
- Support to the provision of production inputs. Support for the advancement of efficiency level in farm operation and management.
- Support to establishment of post harvest facilities, value adding and product development initiatives.
- Support to both local and national research and development agenda

### 3. Facilitate and promote access to local and international market

- Support to farmers competitiveness enhancement program or activities
- Facilitate investment opportunities to highly viable project initiatives
- Support to product development, matching and promotion activities both local and international.

### 4. Proactive management actions on demand and supply situation

- Support the full utilization of local and indigenous crop species with net potential.
- Coordinate and support consumer awareness program to affect demand situation
- Support to food safety measures and data - information system (market & climate) as analytical tool.

## PRIORITY PROGRAMS

### Area Expansion

*Commodities* : Coffee, Cacao and Rubber

*Objective* : Increase Productivity and Production

### Productivity Enhancement

*Commodities* : Vegetables, Fruits and Rootcrops

*Objective* : Enhance productivity and production

### Cost Competitiveness Towards Import Substitution

*Commodities* : Mungbean, Peanut, Garlic, Yellow Onion, Atchuete, Black Pepper, White Potato

*Objective* : Lessen importation of various vegetables through increase in production

### Support to Production of Local/Traditional Commodities With Seasonal/Local Demand

*Commodities* : Local Fruits (Regional Champions)

*Objectives* : Increase production of local/traditional fruits  
Promote regional/traditional fruits in the local and international

### Postharvest/Value Adding/Product Development

*Commodities* : Fruits, Vegetables, industrial Crops, Rootcrops

*Objective* : Provide additional income to farmers/ organizations

### Support to Climate Change Mitigation/Adaptation

*Commodities* : Vegetables, Fruits, Industrial Crops, Rootcrops

*Objective* : Provide mitigating/adaptive measures for climate change

## INTERVENTIONS BY MAJOR FINAL OUTPUT

1. Production Support Services
2. Market Development Services
3. Extension Support, Education and Training Services
4. Research and Development
5. Irrigation Network Services
6. Agricultural and Fishery Machinery, Equipment and Facilities Support Services
